

1. Define speed.
2. Write the formula for distance.
3. A bus covers 240 km in 4 h. Find its speed.
4. Convert 3 km into metres.
5. Write two differences between speed and time.
6. A car covers 150 km in 3 h. Find speed.
7. A cycle travels 10 km in 30 min. Find distance in 2 h.
8. Write three different modes of travel.
9. A train leaves at 6:15 am and reaches at 9:45 am. Find travel time.
10. Why do we use km for long distances and cm for short distances?
11. A bus covers 420 km in 7 h. Find speed. How much distance in 10 h?
12. Draw a labelled diagram showing 4 different vehicles.
13. A train covers 480 km in 8 h. Find speed. How long for 720 km?
14. Explain with example the relation between distance, speed, and time.
15. A traveller leaves at 7:20 am and reaches 11:50 am. Find travel time. If his speed is 60 km/h, find distance.
